

# PEBSOL

PEB - SOLAR - INFRA

## Why Us?

With over two decades of experience, PEBSOL has been a key player in industrial sheds, solar structures, commercial pre-fab projects, and solar EPC solutions. Our extensive expertise spans across industries, including paper mills, spinning mills, pharmaceutical units, and commercial buildings.

As pioneers in solar structures in India, PEBSOL was one of the first companies to introduce Solar Module Mounting Structures in Telangana. Our highly experienced and technically qualified team, combined with robust financial resources and advanced prefab machinery, ensures successful execution of all structural and solar projects.

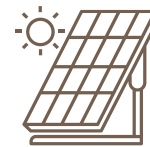

# What We Do & Why It Matters?

At Pepsol, we design, fabricate, and deliver industrial sheds, solar structures, and pre-engineered buildings (PEB) with precision and efficiency.

## PEB & Prefab Solutions

Fast, durable, and cost-effective construction.

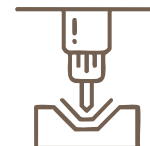

## Solar Structures

Pioneering solar module mounting systems.

## EPC Services

End-to-end project execution with top-tier quality.

## Steel Fabrication

21,500 MT annual capacity for high-precision structures.

---

We do this to redefine construction, support industrial growth, and deliver smarter, faster, and stronger solutions—always on time, with uncompromising quality.

## Vision

To lead the prefabricated building industry through continuous innovation and smarter, faster construction solutions.

To make high-quality, affordable EPC buildings accessible to a wide range of customers.

To be a regional leader in innovative and reliable solar racking solutions, supporting the growth of solar power with sustainable, cost-effective systems.

## Mission

To relentlessly pursue excellence by fostering a culture of continuous improvement, leveraging the latest technologies, industry insights, and customer feedback to enhance the quality, efficiency, and sustainability of our Prefab, Solar, and EPC solutions.

# Customer-Centric Approach

At PEBSOL, customer satisfaction is our top priority. Our commitment to delivering superior quality and service is reflected in the trust and repeat business from our clients.

## Product

We promise and deliver top-quality prefabricated and solar structures.

## Price

We offer the best value for money, customized as per client requirements.

## Time

Timely project delivery is our primary goal.

## Place

We deliver our products globally, including India, Tanzania, Vietnam, and Canada.

# Company Highlights

12

**Lakh Sq. Ft.** of Prefab Buildings  
per year

₹210

**Crore** Turnover (last year)

21,500

**Metric Tons** of Fabrication  
Capacity per year

150

**Employees**

200

**MW Solar Structure** Installation per  
year, with plans for expansion

## Infrastructure

**Unit I**

60,000 Sq. Ft.

**Unit II**

40,000 Sq. Ft.

# Our Product Range

Precision-built. Performance-tested. Engineered to last.

## Fabricated Structures

Custom-built steel structures designed for industrial, commercial, and infrastructure needs.

## Z & C Purlins

Lightweight, high-strength components for framing and roofing applications.

## Flange Bracing

Stabilizes beams and columns, ensuring structural integrity under load.

## Deck Sheets

Durable and cost-efficient flooring systems for multi-storey buildings.

## Sag Rods / Brace Rods

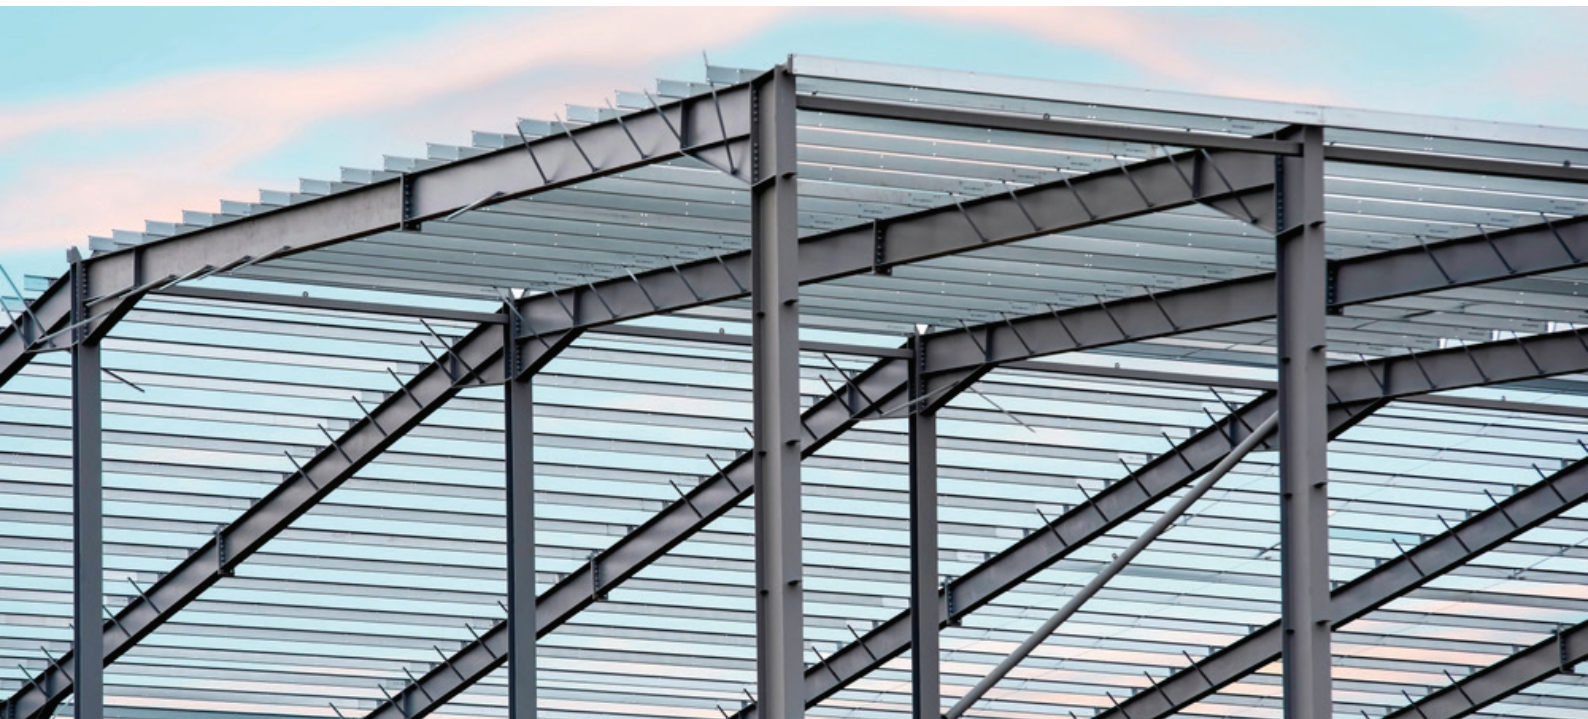

Essential reinforcements that improve load resistance and structural strength.

## Color Coated Sheets

High-quality, corrosion-resistant sheets for roofing and cladding.

## Bubble Insulation

Thermal insulation sheets with superior reflectivity, ideal for PEB structures.

# Our Machinery Line-Up

Advanced technology powering precision engineering.

## Automatic Beam Welding

### Machine

Ensures high-speed, uniform welds for strong and flawless beams.

## Automatic Z & C Purlin Machines

Delivers consistent, custom-sized purlins with high-speed accuracy.

## Deck Sheet Machine

Efficiently produces robust decking sheets with clean profiles.

## Color Coated Roll Forming

### Machine

Shapes pre-painted coils into panels with precision and minimal waste.

## Paint Booth

Controlled environment for uniform coating and long-lasting finish.

## Roll Forming Machines for Solar

### Module Mounting Structures

Specialized for solar racking systems—ensuring accurate profiles and efficient output.

# Major Projects Executed

## Azad Engineering

65,000 Sq. Ft.

## Fusion Building Material

105,000 Sq. Ft.

## Vajra Rice Industry

60,000 Sq. Ft.

## Fortune Oils

70,000 Sq. Ft.

## Exito Buildings

40,000 Sq. Ft.

## BM3S Infra

90,000 Sq. Ft.

## Kamakshi Infra

75,000 Sq. Ft.

## Ananda Convention

72,000 Sq. Ft.

## Apple Granite

80,000 Sq. Ft.

## Automotive India

65,000 Sq. Ft.

## Sri Raj Udyog Pvt Ltd

150,000 Sq. Ft.

## Geekay Wires Ltd

95,000 Sq. Ft.

# Our Projects

Delivering large-scale, time-critical, and challenging projects - on time, every time.

## Shri Raj Udyog Pvt. Ltd – Cherkurda, Hyderabad

Integrated Steel Factory | 2,50,000 Sq. Ft

- Pepsol's biggest and most comprehensive project to date
- Delivered for a fully integrated steel manufacturing unit
- Demonstrates our ability to handle complex, large-scale industrial projects

# Azad Engineering – Hyderabad, Jeedimetla

Industrial Shed | 65,000 Sq. Ft | Completed in 48 Days

- Delivered end-to-end, including civil works
- Strict adherence to client norms & industrial compliance
- Fast-track execution without compromising quality

# Reliance Retail – Tirupati

Retail Building | Challenging Location | 2.5 Months Completion

- Built next to the temple, in the heart of a busy market
- Work allowed only during night hours
- Overcame logistical limitations with efficient coordination

# Ananda Convention Center – Hyderabad

Event & Convention Hall | 70,000 Sq. Ft

- Complete project executed from design to handover
- High-traffic public space built with structural aesthetics and durability in mind
- Delivered within stipulated timeline, maintaining flawless finishing

# Devi Function Hall – Shankarpally

Event Venue | 70,000 Sq. Ft

- Executed with a focus on grandeur, space efficiency, and crowd flow
- Seamless delivery despite tight space constraints and custom design

## EPC Services

As a trusted EPC (Engineering, Procurement, and Construction) contractor, PEBSOL delivers comprehensive solutions for infrastructure and energy projects. Our expertise spans the entire project lifecycle, from initial design and procurement to construction and commissioning.

Our commitment to quality, safety, and efficiency ensures on-time and within-budget project execution, helping clients achieve their goals with sustainable, innovative solutions.

# Solar Solutions

PEBSOL specializes in designing, fabricating, and installing solar module mounting structures. With a robust infrastructure and a highly skilled workforce, we ensure the delivery of efficient, durable, and cost-effective solar solutions to support the transition to renewable energy.

# Why Choose PEBSOL?

## Proven Expertise

20+ years of experience in prefab, solar, and EPC solutions.

## Innovation & Technology

Advanced machinery and engineering solutions.

## Commitment to Quality

Rigorous quality control and industry compliance.

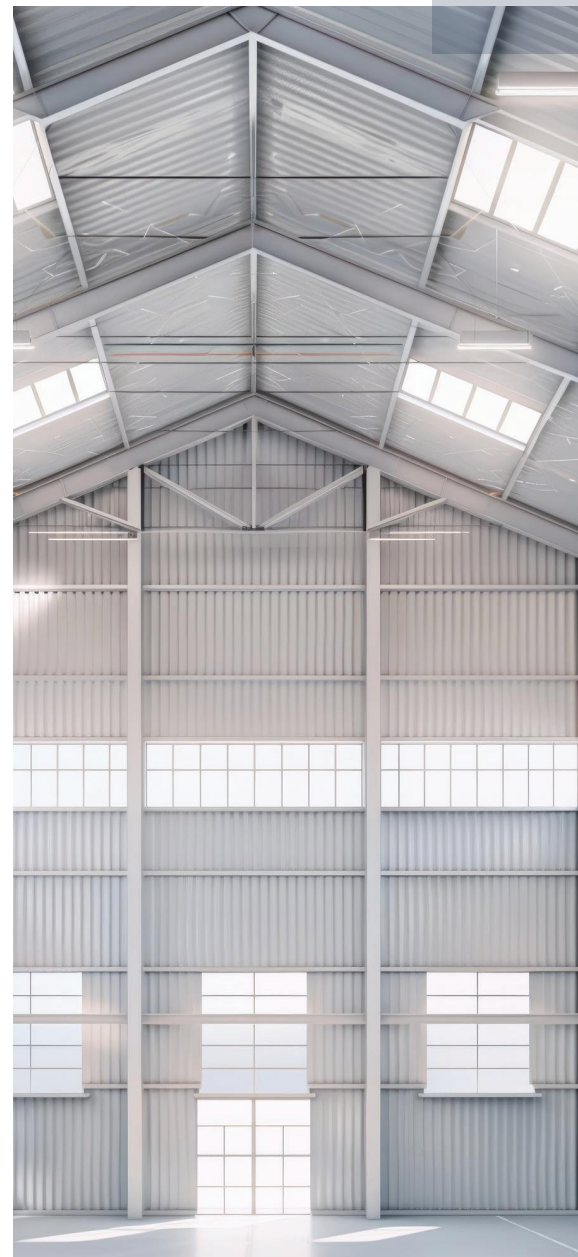

## Timely Delivery

Strict adherence to project timelines.

## Global Reach

Successfully executed projects across India, Tanzania, Vietnam, and Canada.
